

# Sandesh Timilsina

---

Albuquerque, New Mexico 87106. (662)497-4421. Email: timilsinasandesh7@gmail.com Website: www.sandesht.com

## Education

**Bachelor of Science in Computer Science and Mathematics**

Graduated Dec 2020

The University of New Mexico (UNM), Albuquerque, NM

**GPA 3.93**

## Skills & Abilities

---

### COMPUTER SKILLS

- Proficient in Java, C, Linux, Python, mysql, Haskell, HTML, CSS, JavaScript.
- Familiar with AWS, React, React Native.
- Proficient in Microsoft Word, Excel, Acrobat, and Powerpoint
- In-Class Projects completed using Java: Online Auction (with sockets), Scrabble, Dominos, Connect-four, NewyorkTimes Tile.
- Leisure Projects completed using Javascript: Covid-19, Connect-Four, Break-Ball, Five-Field-Kono (flutter)
- <https://github.com/sandesh139>

## Professional Experience

---

**STUDENT TECHNICAL ASSISTANT | CENTER FOR HIGH TECHNOLOGY MATERIAL, UNIVERSITY OF NEW MEXICO | JANUARY 2020- DECEMBER 2020**

- Updated C scripts monitoring Symantec backup to adapt to a new Veritas system by reviewing logs and performing validation checks.
- Created an interactive quiz application from scratch using javascript, htaccess from apache, css and html.
- Performed automated system monitoring using Nagios and fixed systems, services and hardware alerts.

**UNDERGRADUATE RESEARCH ASSISTANT | CENTER FOR HIGH TECHNOLOGY MATERIAL, UNIVERSITY OF NEW MEXICO | AUGUST 2019- DECEMBER 2020**

- Evaluated the scaling behavior of Anderson localization in an off-diagonally disordered random network (nearest neighbor coupling Hamiltonian) using random matrices.
  - Calculated the eigenvectors of ultra-large random matrices and evaluated two different localization metrics on the eigenvectors to calculate the probability density function of network localization.
  - Optimized algorithms to achieve the best efficiency and address memory issues in a large-scale linear algebra problem.
- The work was partially supported by grants from DoD, ARO and NSF.

**TUTOR | CENTER FOR ACADEMIC PROGRAM SUPPORT, UNIVERSITY OF NEW MEXICO | JANUARY 2019 – JANUARY 2020**

- Tutored General Physics, Numerical Computing, Statistics, Ordinary Differential Equations, linear Algebra, and Calculus.
- Developed critical thinking and problem-solving skills while approaching the challenging questions brought by the students.
- Enhanced communication skills through weekly-training and tutoring experiences.
- Gained time management and customer service skills from training and experience.

**CASHIER | SUBWAY, UNIVERSITY OF NEW MEXICO | SEPTEMBER 2018- DECEMBER 2018**

- Developed time management, customer service, and teamwork skills.

## Achievements

---

- Winning team of CTSC Health Science Hackathon 2020
- Navigation System Inside UNM Hospital project received the fund of \$9,873
- Amigo Scholarship, UNM
